Crocheted Face Cloths

No. 107 – crochet a batch of mini-granny square washcloths perfect for cleaning your pretty face each evening

by Lauren, blogger at Craft My Life Away
Pattern written for the From Scratch Club (woohoo!)

MATERIALS / TOOLS:

- 100% Cotton yarn, medium (4) weight
- Crochet hook as identified on the skein of yarn, I used size G/6-4.25mm crochet hook and liked using the slightly smaller sized hook as it made for a thicker, fluffier washcloth (my skein suggested a 4.5mm or 5mm)
- Scissors for trimming yarn ends

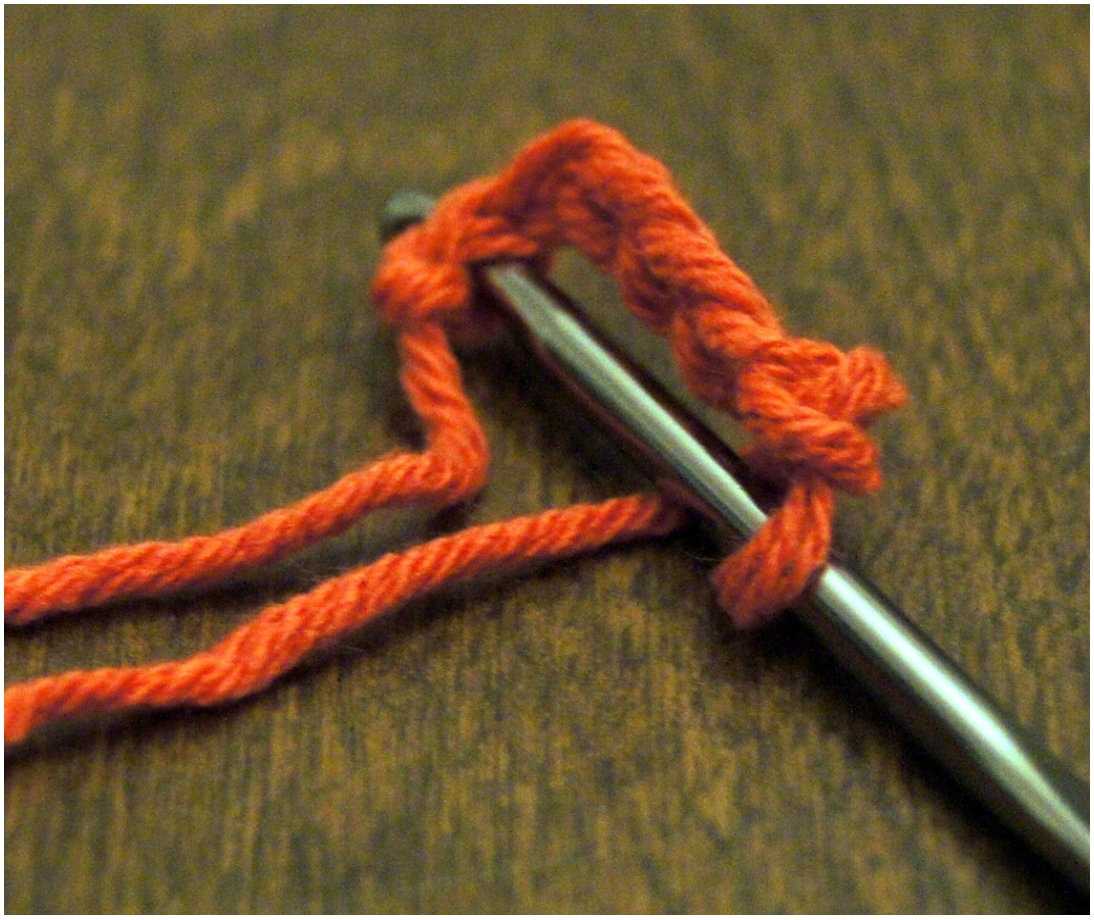

{CONSTRUCTING THE FACE CLOTHS}

Note* I consider this project to be a gateway crocheting project. These instructions assume that you either know how to crochet already or that you can easily perform a Google search for beginner tutorials and learn the basics yourself. Don't be intimidated, crocheting is one of the easiest crafts ever and it is super addicting and super portable (you can bring it anywhere and crochet anytime).

INSTRUCTIONS:

1. Make a slipknot and tighten that slipknot around the crochet hook. I suggest leaving a 3 inch tail of yarn so that you can weave in the ends later easily.

2. Chain 6, then join the ends of the chain with a slip stitch into the first chain. This will create a ring, as we are crocheting in the round (or square).

3. Round 1: Chain 3 (creating your first double crochet), 2 double crochet in the center of the ring, chain 1, 3 double crochet in the center of the ring, chain 1, 3 double crochet in the center of the ring, chain 1, 3 double crochet in the center of the ring, chair 1, slip stitch into the top of the first chain 3, which was the first set of stitches in this round.

4. Slip stitch through the next 2 chain stitches, slip stitch through the next corner space.

5. Round 2: Chain 3 (which creates your first double crochet), 2 double crochet in ***first*** corner space, chain 1, 3 double crochet in ***same (first)*** corner space, 3 double crochet into ***next (second)*** corner space, chain 1, 3 double crochet in ***same (second)*** corner space, 3 double crochet into ***next (third)*** corner space, chain 1, 3 double crochet in ***same (third)*** corner space, 3 double crochet into ***next (fourth)*** corner space, chain 1, 3 double crochet in ***same (fourth)*** corner space.

G/6 - 4.25MM

6. Slip stitch through the next 2 chain stitches, slip stitch through the next corner space.

7. Round 3: Chain 3 (which creates your first double crochet), 2 double crochet in ***first*** corner space, chain 1, 3 double crochet in ***same (first)*** corner space, 3 double crochet in next space, chain 1, 3 double crochet in same space, 3 double crochet into ***next (second)*** corner space, chain 1, 3 double crochet in ***same (second)*** corner space, 3 double crochet in next space, chain 1, 3 double crochet in same space, 3 double crochet into ***next (third)*** corner space, chain 1, 3 double crochet in ***same (third)*** corner space, 3 double crochet in next space, chain 1, 3 double crochet in same space, 3 double crochet into ***next (fourth)*** corner space, chain 1, 3 double crochet in ***same (fourth)*** corner space.

G/6 - 4.25MM

8. Slip stitch through the next chain stitch. Clip yarn, leaving about a 3 inch tail. Weave the tail into the crocheted piece , tying a small knot to secure the end after weaving the yarn in several times. Also, I try to weave the ends in on the WRONG SIDE of the crocheted item.

THERE YOU HAVE IT! You've made your little face washcloth. I used about 1/3 of a skein of yarn, and I made all 7 of these face scrubbers, an entire weeks worth so that you have a new washcloth for your face everyday!
